

AIR CAMERA VENUE SETUP GUIDE

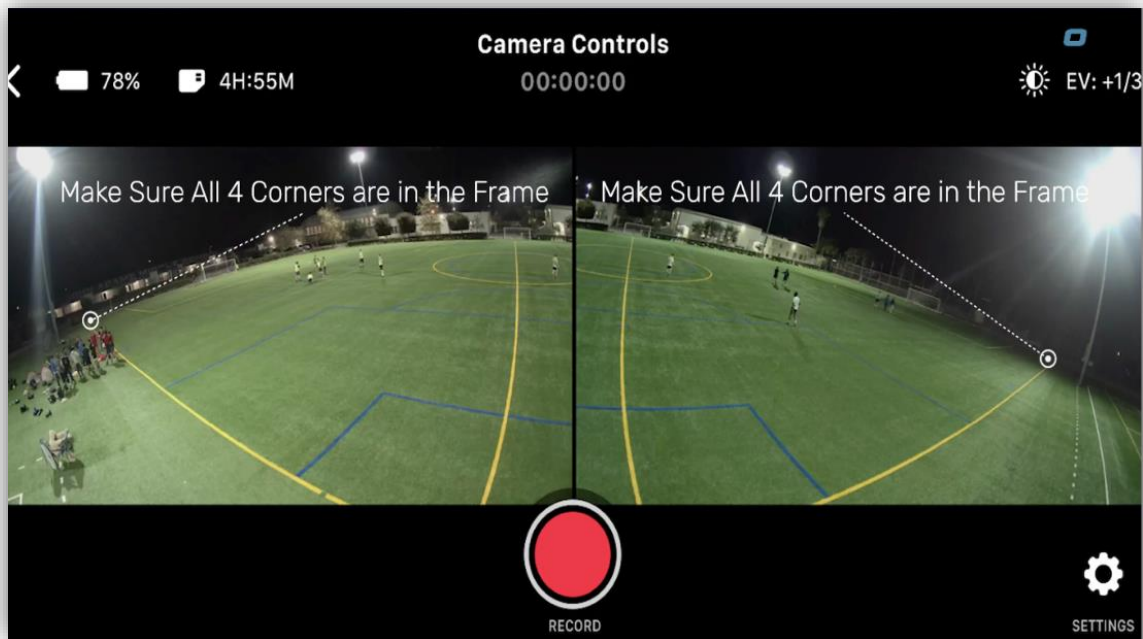

COPYRIGHT © PIXELLOT 2023

Dec. 2023, Version 1

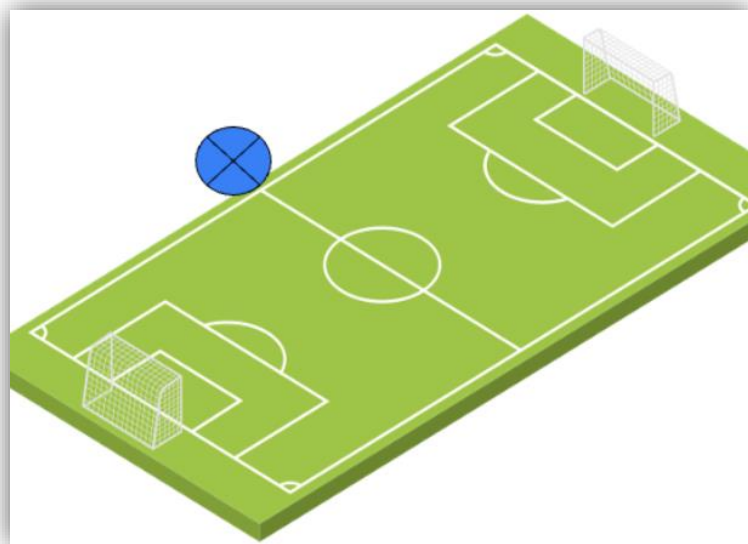

Congratulations on receiving your Pixellot Air camera! Follow the instructions below on how to best setup the Air camera in venue at your event.

1. Turn the camera on and wait until the LED lights show green. At this point, you may connect using the Pixellot Control app.
2. Once in the recording screen, you'll see the view from the lenses. This is a view finder, and its purpose is to set the camera up correctly.

3. For the best experience, the camera and tripod need to be setup as close as possible to mid court/field as pictured below. If this is not possible, you can setup the camera within 1-3 feet to the right or left of the mid-line but any further than this can result in poor video quality output.

4. For the recommended height and distance from the sideline, see below for the relevant sport type. This is only an estimate. The goal is to capture all 4 corners of the field as pictured in step 2.

Basketball (Indoor or Outdoor Tripod)- Setup at Mid Court

Tripod Height: 10-13 Feet (3- 4 Meters)

Distance From Sideline: 8-13 Feet (2.5- 4 Meters). You can set up right on the sideline if you must but for the best experience, 8-13 feet (2.5- 4 Meters).

Soccer (Outdoor Tripod Only)- Setup at Mid Field

Tripod Height: 12-15 Feet (3.5- 4.5 Meters)

Distance from Sideline: 12-15 Feet (3.5- 4.5 Meters)

American Football (Outdoor Tripod Only)- Setup at Mid Field

Tripod Height: 12-15 Feet (3.5- 4.5 Meters)

Distance from Sideline: 12-15 Feet (3.5- 4.5 Meters)

Ice Hockey (Indoor or Outdoor Tripod)- Setup at Mid Rink

Tripod Height: 10-15 Feet (3- 4.5 Meters)

Distance from Sideline: 10-15 Feet (3- 4.5 Meters)

Volleyball (Indoor or Outdoor Tripod)- Setup at Mid Court

Tripod Height: 10-13 Feet (3- 4 Meters)

Distance From Sideline: 8-13 Feet (2.5- 4 Meters). You can set up right on the sideline if you must but for the best experience, 8-13 feet (2.5- 4 Meters).

Lacrosse (Outdoor Tripod Only)- Setup at Mid Field

Tripod Height: 12-15 Feet (3.5- 4.5 Meters)

Distance from Sideline: 12-15 Feet (3.5- 4.5 Meters)

Field Hockey (Outdoor Tripod Only)- Setup at Mid Field

Tripod Height: 12-15 Feet (3.5- 4.5 Meters)

Distance from Sideline: 12-15 Feet (3.5- 4.5 Meters)

5. Once you've setup the Air camera in your desired location, press record within the recording screen. The LED lights on the front will turn to red signifying the recording has started. The camera will continue recording until someone stops it, dies, or runs out of memory. You do not need to remain connected with your phone for the duration of the recording.
